SECONDARY SCHOOL (10TH CLASS) EXAMINATION, 2022

COMPUTER SCIENCE

Past Paper 2022

Retyped faithfully from the original board paper — same questions, no changes.

SECTION-A

Time Allowed: 15 Minutes | **Maximum Marks:** 11

Note: 1) Attempting all MCQs is compulsory. This paper along with the OMR sheet must be returned to the superintendent after due time. 2) Fill the circle A B C D, which one is correct with blue or black ball point in separate OMR Sheet like ● 3) If more than one circle in the OMR sheet is filled then no credit will be given to such answer.

Q1. An algorithm is a sequence of computational steps that transfer the input into _____.

(A) Data structure
(B) Algorithm
(C) Output
(D) All of them

Q2. A quantity whose value may change during execution of the program is called a _____.

(A) Constant
(B) Name
(C) Variable
(D) Symbol

Q3. Which of the following function is used to display output on the screen?

(A) print f ( )
(B) scan f ( )
(C) get s ( )
(D) getchar ( )

Q4. In C language every statement is terminated by _____.

(A) Double quotes
(B) Full stop
(C) Comma
(D) Semi colon

Q5. Switch statement is used for _____ choice or selection.

(A) Single
(B) Double
(C) Multiple
(D) None of these

Q6. Keyword "default" is used in the body of _____ statement.

(A) if
(B) Switch
(C) if-else
(D) All of these

Q7. How many types of loop structure are available in C?

(A) [illegible in source scan] (B) 4

(C) 2 (D) 6

Q8. In which loop the number of intevation are known in advance?

(A) do-while (B) while

(C) nested (D) for

Q9. An electronic circuit that takes one or more input signals and produces a single output signal is called _____.

(A) Digital logic gate (B) Diagram

(C) Table (D) None of these

Q10. Internet address which Identifies a website is called?

(A) Web page (B) URL

(C) Web site (D) Web Server

Q11. Which language is used for creating web pages?

(A) C language (B) URL

(C) HTML (D) Web Browser

SECTION "B"

Time Allowed: 2 hours and 15 minutes | **Maximum Marks:** 28

QII. Attempt any SEVEN Parts out of the following. Each Part carries equal marks.

(i) List various factors for selecting the best solution of any problem.

(ii) What are the characteristics of high level languages?

(iii) What is purpose of const qualifier?

(iv) What is the purpose of gets ( ) function in C language?

(v) What is the use of format specifiers? Give examples.

(vi) Write a program to display alphabet, from A to Z using for loop.

(vii) Differentiate between the do-while and while loop with example?

(viii) How Data is represented in a Computer. Explain?

(ix) What is website? Give some examples.

(x) What is HTML?

SECTION "C"

Maximum Marks: 16

Note: Attempt any TWO questions of the following. Each question carries equal Marks.

QIII. How variables are declared and initialized in C language? Give examples.

QIV. Write a program that reads name and address of a student and prints it on the screen using gets ( ) and puts ( ) function.

QV. Write short notes on the following. i) Java Language ii) Print f ( ) function iii) If statement iv) Web page
