BOARD OF INTERMEDIATE AND SECONDARY EDUCATION, LAHORE

SECONDARY SCHOOL (10TH CLASS) EXAMINATION, 2025

COMPUTER SCIENCE

Past Paper 2025

Retyped faithfully from the original board paper — same questions, no changes.

GROUP – I

Computer Science (Objective Type) - Group - I

Time Allowed: 15 Min. | **Maximum Marks:** 10

Note: Four possible answers A, B, C and D to each question are given. The choice which you think is correct, fill that circle in front of that question with Marker or Pen ink in the answer book. Cutting or filling two or more circles will result in zero mark in that question.

Q1. If there are three return statements in the function body --- of them will be executed :

(A) One (B) Two

(C) Three (D) Four

Q2. ------ make it easier to read and write values in array:

(A) Loops (B) Conditions

(C) Expressions (D) Functions

Q3. Which of the following is not a type of operator:

(A) Arithmetic operator (B) Relational operator

(C) Check operator (D) Logical operator

Q4. ----- can be thought of as a container to store constants:

(A) Box (B) Jar

(C) Variable (D) Collection

Q5. Include statements are written in -------- section :

(A) Header (B) Main

(C) Comments (D) Print

Q6. getch ( ) is not used to take — as input from user:

(A) int (B) float

(C) char (D) array

Q7. Identify the function name in the following : int function (float, char)

(A) int (B) function

(C) float (D) char

Q8. ------ part of for loop is executed first:

(A) Condition (B) Initialization

(C) Body (D) Increment/decrement

Q9. An if statement inside another if statement is called ----- structure :

(A) Boxed (B) Repeated

(C) Nested (D) Decomposed

Q10. How many types of selection statement are there in C language:

(A) 2 (B) 3

(C) 4 (D) 5

Computer Science (Subjective) (PART - I) - Group - I

Time Allowed: 1.45 hrs. | **Maximum Marks:** 40

Q2. (Marks 8) Write short answers to any FOUR (4) questions:

(i) Who is programmer?

(ii) What is meant by syntax of programming language?

(iii) Differentiate between constant and variable.

(iv) What are format specifiers?

(v) Differentiate between unary and binary operators.

(vi) Write the output of the following code: printf ("Hello \ t world \ n"); printf ("PAKISTAN");

Q3. (Marks 8) Write short answers to any FOUR (4) questions:

(i) Define compound statement.

(ii) Trace the errors of the following code: if (x > 10) printf ("Good")

(iii) What is nested if statement?

(iv) Write for loop syntax.

(v) Write the output of the following code: for (int x=2 ; x < = 20 ; x = x + 2) printf ("%d \ n", x);

(vi) What is nested loop structure?

Q4. (Marks 8) Write short answers to any FOUR (4) questions:

(i) What is built in function?

(ii) Define function parameters.

(iii) Identify the error in the following code: void message () { printf ("Hope you are fine:)"); return 23; }

(iv) Define user define function.

(v) Define an array.

(vi) Write down the syntax for array declaration.

Computer Science (Subjective) (PART - II) - Group - I

Time Allowed: 1.45 hrs. | **Maximum Marks:** 40

> Note: Attempt any TWO questions.

Q5. (Marks 8) What is meant by data type of a variable? Explain the types of different data types used in C-language.

Q6. (Marks 8) Which operators are used in arithmetic operations? Discuss in detail with example.

Q7. (Marks 8) Write a program using if-else statement in C-language that inputs two numbers from user and display the greater number on screen.

GROUP – II

Computer Science (Objective Type) - Group - II

Time Allowed: 15 Min. | **Maximum Marks:** 10

> Note: Four possible answers A, B, C and D to each question are given. The choice which you think is correct, fill that circle in front of that question with Marker or Pen ink in the answer book. Cutting or filling two or more circles will result in zero mark in that question.

Q1. IDE stands for:

(A) Integrated Digital Environment

(B) Integrated Desktop Environment

(C) Integrated Development Environment

(D) Internal Disk Error

Q2. How many parts to develop C-program:

(A) Two
(B) Four
(C) One
(D) Three

Q3. The answer of expression 12+6/3 in C-language is:

(A) 18
(B) 20
(C) 12
(D) 14

Q4. Which of the following format specifier is used for integer data type:

(A) %f
(B) %c
(C) %d
(D) %m

Q5. if-else statement is known as ------:

(A) Control variable
(B) Selection variable
(C) Logical variable
(D) Loop variable

Q6. Which of the following expression is True:

(A) 15 < 6
(B) 5 = = 4
(C) 5 + 4
(D) 4 > 5

Q7. Using loops inside loops is called ------ loops:

(A) For
(B) While
(C) Do-while
(D) Nested

Q8. ---- make it easier to read and write values in array:

(A) Loops
(B) Conditions
(C) Expressions
(D) Functions

Q9. Which values passed to a function is called -------:

(A) Arguments
(B) Parameter
(C) Bodies
(D) Array

Q10. The ----- of a function is the data type of the value returned by function:

(A) Prototype
(B) Signature
(C) Body
(D) Return type

Computer Science (Subjective) (PART - I) - Group - II

Time Allowed: 1.45 hrs. | **Maximum Marks:** 40

Q2. (Marks 8) Write short answers to any FOUR (4) questions:

(i) Differentiate between constants and variables.

(ii) Why do we need a programming environment?

(iii) Describe the purpose of using comments.

(iv) What are relational operators? Describe with an example.

(v) Which function of C-language is used to display output on screen?

(vi) Describe the purpose of Modulus operator.

Q3. (Marks 8) Write short answers to any FOUR (4) questions:

(i) What is meant by sequential control?

(ii) Draw a flow chart of if-else statement.

(iii) Define selection statement.

(iv) Find the error in the given code: for (int i = 0, i < 10 , i + +) printf ("%d \ n", & i) ;

(v) Write the syntax of for loop.

(vi) What is meant by initialization of for loop?

Q4. (Marks 8) Write short answers to any FOUR (4) questions:

(i) Which are the basic types of function?

(ii) What is meant by function signature?

(iii) Write two advantages of functions.

(iv) What is meant by function calling?

(v) Define an array in your own words.

(vi) Describe index of an array.

Computer Science (Subjective) (PART - II) - Group - II

Time Allowed: 1.45 hrs. | **Maximum Marks:** 40

> Note: Attempt any TWO questions.

Q5. (Marks 8) Describe the basic structure of C-program.

Q6. (Marks 2,6) Define logical operator. Explain types of logical operators.

Q7. (Marks 8) Write a program that take a number as input from user and tells whether the given number is even or not.
