BOARD OF SECONDARY EDUCATION, KARACHI

SECONDARY SCHOOL (10TH CLASS) EXAMINATION, 2022

COMPUTER STUDIES

Past Paper 2022

Retyped faithfully from the original board paper — same questions, no changes.

SECTION "A" MULTIPLE CHOICE QUESTIONS (MCQs)

Maximum Marks: 24

Note: NOTE: (i) Attempt all the Questions of this Section. (ii) Do not copy down the part questions. Write only the answer against the proper number of the Question and its part according to the question Paper. (iii) Each question carries 1 Marks

Q1. Choose the correct Answer for each from the given question: (For Fresh Candidates of 2022)

Q1. The type of function which is the part of a computer language is known as:

(A) user-define function
(B) library function
(C) sub-program
(D) None of these

Q2. The process of converting source code into object code is known as:

(A) Compiling
(B) Executing
(C) Linking
(D) Saving

Q3. An inverter is:

(A) OR
(B) AND
(C) NOT
(D) none of these

Q4. Step by step solution of a problem in simple language is called:

(A) Problem solving
(B) Algorithm
(C) Flowchart
(D) Data Structure

Q5. The looks of sprite can be changed by using:

(A) backdrop tab
(B) costume tab
(C) script tab
(D) control tab

Q6. The type of data that is used for decimal point value is:

(A) int
(B) char
(C) boot
(D) float

Q7. The parts of switch statements are "case" and:

(A) have
(B) if
(C) default
(D) for

Q8. Loop within a loop is called:

(A) inner
(B) outer
(C) enclosed
(D) nested

Q9. In a flowchart, an arrow represents:

(A) decision making
(B) start
(C) data flow
(D) stop

Q10. "!=" operator belongs to which type of operator?

(A) Arithmetic
(B) Logical
(C) Relational
(D) None of these

Q11. Which of the following needs pressing "Enter key" from keyboard?

(A) getch()
(B) getche()
(C) getchar()
(D) gets()

Q12. In Boolean Algebra, A.A =

(A) 0
(B) A
(C) $\bar{A}$
(D) A

Q13. Which operator is used for input stream from the following:

(A) <
(B) >>
(C) <<
(D) →

Q14. The Boolean expression of NOR gate two variables is:

(A) $A+\bar{B}$
(B) $\bar{A}+\bar{B}$
(C) A+B
(D) $\bar{A}.\bar{B}$

Q15. To send value, to the calling function we use:

(A) throw statement
(B) send statement
(C) return statement
(D) back statement

Q16. The number of bytes used by "int" type in C++ is:

(A) 2
(B) 4
(C) 8
(D) 1

Q17. C++ statement ends at:

(A) .
(B) ;
(C) ,
(D) :
(E)

Q18. In scratch, the character which moves on the stage is called a:

(A) sprite
(B) command
(C) script
(D) event

Q19. Which of the following operator works only with integer value?

(A) /
(B) %
(C) +
(D) *

Q20. The process of given variable, its starting value is called:

(A) declaring
(B) naming
(C) Initializing
(D) none of these

Q21. The universal gate is:

(A) NAND Gate
(B) AND Gate
(C) OR Gate
(D) None of these

Q22. The word "prototype" means:

(A) Declaration
(B) Calling
(C) Definition
(D) None of these

Q23. All errors detected by a user are:

(A) syntax errors
(B) run time errors
(C) logical errors
(D) none of these

Q24. "break" statement is used with:

(A) if
(B) switch
(C) for
(D) while

SECTION “B” (Short Answer Question)

Maximum Marks: 24

Note: NOTE: Attempt any EIGHT Questions from this section. All questions carry equal marks.

Q2. What is Computer Program?

Q3. Write down the purposes of any two statements:

(i) if-else

(ii) return

(iii) exit ()

(iv) continue

Q4. Why do we use Boolean Algebra?

Q5. Differentiate between Arithmetic operators and relational operators.

Q6. Why is there need of index in an array?

Q7. Write down any three rules of naming variable in C++.

Q8. Write the uses of any three escape sequences: \t \n \r \b \a

Q9. Explain the purpose of "default" in C++.

Q10. What are strings in C++?

Q11. Write the functions of "for loop".

Q12. Explain increment operator (++) and write the name of two ways of its usage.

Q13. Describe comment statement. How many types of comment statement are used in C++?

Section C (Detailed –Answer Question)

Maximum Marks: 12

> Note: NOTE: Attempt any TWO (2) questions from this section. Each question carries (Six) 6 marks.

Q14. Write any three steps of problem solving.

Q15. Differentiate between constant and variable.

Q16. Describe the following translators:

(i) Compiler

(ii) Interpreter

(iii) Assembler
