BOARD OF INTERMEDIATE EDUCATION, KARACHI

INTERMEDIATE (11TH CLASS) EXAMINATION, 2025

COMPUTER SCIENCE

Past Paper 2025

Retyped faithfully from the original board paper — same questions, no changes.

Section 'A' (Multiple Choice Questions)

Maximum Marks: 15

Note: This section consists of 15 part questions and all are to be answered. Each part question carries 1 mark. Do not copy the part questions in your answerbook. Write only the answer in full against the proper number of the question and its part. (Options in the original are separated by star marks, shown here as A–D in printed order. v has "Unique Resource Locator" printed twice, as printed. Scan check-marks on correct options are not transcribed.)

Note: TIME: 3 Hours — 75 Marks — Science General Group

Q1. Choose the correct answer for each from the given options:

Qi. The primary function of CPU in computer is:

(A) To input data
(B) To store data
(C) To process data
(D) To output data

Qii. This is considered the 'brain' of the computer:

(A) RAM
(B) Hard disk drive
(C) CPU
(D) Keyboard

Qiii. Smallest unit of the data in computer is:

(A) Bit
(B) Byte
(C) Megabyte
(D) Gigabyte

Qiv. This programming language is commonly used for web development:

(A) Turbo C
(B) C++
(C) Python
(D) HTML

Qv. In internet 'URL' stand for:

(A) Universal Resource Locator
(B) Unique Resource Locator
(C) Unique Resource Locator
(D) Ultimate Resource Locator

Qvi. This is not a type of computer network:

(A) LAN
(B) WAU
(C) MAN
(D) CPU

Qvii. The purpose of a compiler in programming language is:

(A) convert high-level language into machine code
(B) execute the program
(C) translate source code into assembly language
(D) debug errors in the code

Qviii. SNA stands for:

(A) System Network Architecture
(B) Small Network Area
(C) Small Network Access
(D) Serial Network Adaptor

Qix. The third generation of computer used:

(A) Vacuum tubes
(B) Transistors
(C) Integrated circuits
(D) Micro processors

Qx. Data transmission in which data flows in both directions at the same time is called:

(A) Simplex
(B) Half Duplex
(C) Full Duplex
(D) Multiplex

Qxi. This is not a type of operating system:

(A) Windows
(B) Linux
(C) Mac OS
(D) Oracle

Qxii. This is an example of stem software:

(A) MS Word
(B) Adobe Photoshop
(C) Windows
(D) Chrome Browser

Qxiii. Main purpose of data communication is:

(A) To store large amounts of data
(B) To display images
(C) To transfer data between devices
(D) To protect against viruses

Qxiv. Logic elite produce 1 output when all of its inputs are set to 1 otherwise 0:

(A) AND
(B) NOT
(C) OR
(D) NOR

Qxv. Computer can't boot if it does not have:

(A) Compiler

(B) Browser

(C) Operating System

(D) Loader

Section "B" (Short Answer Question)

Maximum Marks: 30

Note: Attempt any TEN part questions in all. All part questions carry equal marks. Answer should not exceed 6 to 7 lines.

Q2.

i) What are the main devices of IoT?

ii) Differentiate between Synchronous and Asynchronous.

iii) What do you mean by primary and secondary storage?

iv) Define the role of application software in computer field.

v) Define the concept of binary digits (bit, bytes and Nibble) in computing.

vi) What is the difference between compiler and interpreter?

vii) What are main difference between Impact and Non-Impact Printer?

viii) What is Metropolitan Area Network?

ix) Define any three input and output devices.

x) Draw any one diagram of the following equation using logical gates: *(A. B) + (A. B) = C * X + (Y. Z) = W

xi) What is the main purpose of ALU?

xii) Define different types of ROM.

xiii) Convert any three of the following number system. *(0111)2 .... (?)10 *(243)8 .... (?)10 *(188)10 .... (?)2 *(659)10 .... (?)8 *(ABC)16 .... (?)10 *(785)10 .... (?)16

xiv) Draw block diagram of a computer system.

xv) Define advancement in computer generation and highlight the key features of fourth generation.

Section C (Detailed –Answer Question)

Maximum Marks: 30

Note: Attempt any THREE question from this section. All questions carry equal marks.

Q3.

Define Computer Network. Describe LAN and WAN with the diagram.

Q4.

Define data communication Also describe its main components.

Q5.

Describe different modes of data communication with examples.

Q6.

What is the purpose of an Operating System in a computer? Describe its features.

Q7.

What is Boolean Algebra? Also write it rules and construct a truth table for two inputs to perform AND & OR logical operations.
