On August 11, 1947 Quaid-e-Azam Muhammad Ali Jinnah delivered his famous speech before the constituent assembly of the newly established state of Pakistan. In his address, he gave vent to his vision of Pakistan. He dwelt on the primary function and responsibilities of the virgin Constituent Assembly, warned against certain evils that might befall the new country and spoke in defense of the partition of The sub-continent. His speech is as follows: "Mr President, Ladies and Gentlemen! I cordially thank you, with the utmost sincerity, for the honour you have conferred upon me – the greatest honour that is possible to confer – by

electing me as your first President. I also thank those leaders who have spoken in appreciation of my services and their personal references to me. I sincerely hope that with your support and your co-operation, we shall make this Constituent Assembly an example to the world. The Constituent Assembly has got two main functions to perform. The first is the very onerous and responsible task of framing the future constitution of Pakistan and the second of functioning as a full and complete sovereign body as the Federal Legislature of Pakistan. You know really that not only we ourselves are wondering but, I think, the whole world is wondering at this unprecedented cyclonic revolution which has brought about the plan of creating and establishing two independent sovereign Dominions in this Sub-continent. As it is, it has been unprecedented, there is no parallel in the history of the world. Dealing with our first function in this Assembly, the first and the foremost thing that I would like to emphasize is this: remember that you are now a sovereign legislative body and you have got all the powers. It, therefore, places on you the gravest responsibility as to how you should take your decisions. The first observation that I would like to make is this: You will no doubt agree with me that the first duty of a government is to maintain law and order, so that the life, property and religious beliefs of its subjects are fully protected by the state."

"The second thing that occurs to me is this: One of the biggest curses from which India is suffering – I do not say that other countries are free from it, but, I think our condition is much worse – is bribery and corruption. That really is poison. We must put that down with an iron hand and I hope that you will take adequate measures as soon as it is possible for this Assembly to do so"..... "The next thing that strikes me is this: Here again it is a legacy which has been passed on to us. Along with many other things, good and bad, has arrived great evil, the evil of nepotism and jobbery. I want to make it quite clear that I shall never tolerate any kind of jobbery, nepotism or any influence directly or indirectly brought to bear upon me. Whenever, I will find that such a practice is in vogue or is continuing anywhere, low or high, I shall certainly not countenance it. "I know there are people who do not quite agree with the division of India and the partition of the Punjab and Bengal. Much has been said against it, but now that it has been accepted, it is the duty of every one of us to loyally abide by it and honorably act according to the agreement which is now final and binding on all. But you must remember, as I have said, that this mighty revolution that has taken place is unprecedented. Now what shall we do? Now, if we want to make this great State of Pakistan happy and prosperous, we should wholly and solely concentrate on the well-being of the people, and especially of the masses and the poor. If you will work in co-operation, forgetting the past, burying the hatchet, you are bound to succeed. If you change your past and work together in a spirit that every one of you, no matter to what community he belongs, no matter what relations he had with you in the past, no matter what is his colour, caste or creed, is first second and last a citizen of this State with equal rights, privileges, and obligations, there will be no end to the progress you will make."
