(a) Incisors
(b) Caniones
(c) Pre-molars
(d) Molars

Q9. The part of gut also associated with respiratory system is:

(a) Stomach
(b) Esophagus
(c) Pharynx
(d) Both a & b

Q10. Average blood pressure is lowest in which structure (s)

(a) Aorta
(b) Arterioles
(c) Capillaries
(d) Vena cava

Q11. The type of immunity through the transfer of antibodies from mother to her fetus is:

(a) Natural Active Immunity
(b) Natural Passive Immunity
(c) Artificial Active Immunity
(d) Artificial Passive Immunity

Q12. Antibodies are secreted by:

(a) T cells
(b) B Cells
(c) Plasma cells
(d) Macrophages

Q13. Which of the following is / are a cause (s) of vasoconstriction?

(a) Lying down after standing
(b) Standing after lying down
(c) Stress or hormone concentration
(d) Histamine secretion

Q14. Lymph most closely resembles which of the following?

(a) Blood
(b) urine
(c) Plasma
(d) Interstitial fluid

Q15. Damage to the S.A Node in humans:

(a) Is a major contributor to heart attacks
(b) Would block conductance between the bundle branches and the purkinje fibers
(c) Would have a negative effect on peripheral resistance
(d) Would disrupt the rate and timing of cardiac muscle contractions

Section-B (Short Questions)

> Note: Answer any 08 questions of the following:

Q2. List out the way of Second line of Defense.

Q3. How a virus survives without host discuses.

Q4. What are the symptoms of Aids?

Q5. Explain the bacterial diseases in Man with their signs, symptoms, treatment and prevention.

Q6. Why N2 is included n mineral nutrient although it is not mineral?

Q7. How annual rings are formed?

Q8. What are growth regulators?

Q9. List out four autoimmune disorder of man?

Q10. Enlist the role of large intestine?

Q11. What are the health risks involved in obesity?

Q12. What are LUB and DUB.

Section-C (Descriptive Question)

> Note: Answer any 02 question of the following:

Q13. Give an account of exchange of gases in plants?

Q14. State and explain the process of digestion in amoeba?

Q15. Explain the unedifying mechanism of fever. State and Explain protective role as well as harmful effects.

Q16. What is the mechanism of inspiration and expiration?

Q17. What are mammals? Name its sub classes Give the characters and example of each sub class.
