BOARD OF INTERMEDIATE AND SECONDARY EDUCATION, SARGODHA

INTERMEDIATE (12TH CLASS) EXAMINATION, 2023

COMPUTER SCIENCE

Past Paper 2023

Retyped faithfully from the original board paper — same questions, no changes.

Paper : II (Essay Type)

پرچہ: II (انشائیہ طرز)

Q. 1223 (Inter Part-II) — Computer Science (Subjective) — Session 2019-21 to 2021-23 — Paper (II)

Q. Time Allowed: 2.10 hours — Maximum Marks: 60

Q. SECTION ---------- I

Q2. (Marks 6 × 2 = 12) 2. Answer briefly any Six parts from the following:- (MS-Access)

(i) What do you mean by data independence? (ii) What is view? (iii) Define end user. (iv) Why is normalization used? (v) What is homonym? (vi) What is database wizard? (vii) Define cardinality (viii) How are records sorted in a query? (ix) What is check box?

Q3. (Marks 6 × 2 = 12) 3. Answer briefly any SIX parts from the followings:-

Q. C – Language (left) / Visual Basic (right)

C-Language: (i) Why main function is imoportant in every C Language program? (ii) Differentiate between structured and unstructured programming languages. (iii) Define the "IDE" of turbo C++. (iv) What is object program? (v) What is user-defined identifier? (vi) What will be the value of X (integer variable)? X=3%10%Z; (vii) What will be the output of the following code? printf("%d", 'a'+'b'); (viii) Trace error from the following code: int x; scanf ("%d", x); (ix) Differentiate between new line and EOF marker.

Visual Basic: (i) What is translator? (ii) How are controls placed on Form? (iii) Who is programmer? (iv) Distinguish between Load and Unload events. (v) What is enable property? (vi) Define implicit declaration. (vii) Define Input box. (viii) How controls are aligned left? (ix) How to make controls of equal site?

Q4. (Marks 6 × 2 = 12) 4. Answer briefly any Six parts from the followings:-

C-Language: (i) What is the use of scanf () function? Write its syntax. (ii) Describe the term Format specifier in C-language (iii) Trace the output of the following code segment: int x=0, y=1, z=4; x=y/x*2; y=x-y/2; printf("%d%d", x,y); (iv) Define conditional operator. Write its syntax.

Visual Basic: (i) Write two properties of an Algorithm. (ii) What is the difference between hiding and closing a Form? (iii) Define implicit declaration. (iv) Describe default property of command button.

C-Language (contd.): (v) Trace the output of the following code segment: int p=3, q=5; if((p>q)||(p!=4)) p=p+1; else q=p-1; printf ("%d%d", p, q); (vi) Write an expression in C-Language for the following: Y is greater than X and less than Z. (vii) What is meant by loop? (viii) Why is sentinel value used in loop? (ix) Convert the following code into while ( ) loop. int a; for (a=1; a<=25; a+=2) if (a%7!=0) print f("%d\n", a);

Visual Basic (contd.): (v) What is pop up menu? (vi) Convert the following code into while---- wend loop. Dim a As Integer For a=1 To 25 step 2 IF (a Mod 7<>0) Then Print (a) End If Next (vii) What is Visual Basic event? (viii) Differentiate between methods and properties. (ix) Define combo box control.

Q. (Marks 8 × 1 = 8) SECTION ---------- II Note: Attempt any ONE question.

Q5. MS - ACCESS

5. Describe the file types from usage print of view?

Q6. 6. Briefly describe basic data distribution strategies.

Q. (Marks 8 × 2 = 16) SECTION ---------- III Note: Attempt any TWO questions either from "C – Language" OR from "Visual Basic"

Q7. 7. C – Language: Define "nested if" statement. Explain its working with Syntax, Flowchart and Example.

Q. 7. --OR-- Visual Basic: Define "Nested if-Then-Else" structure. Explain its working with Syntax, Flowchart and Example.

Q8. 8. C – Language: Write a program in C-Language which prints the sum of the following series by using loops 1+4+9+16+25+...+256

Q. 8. --OR-- Visual Basic: Write a program in VB which prints the sum of the following series by using loops 1+4+9+16+25+...+256

Q9. 9. C – Language: What are global variables? Explain their scope and life time with an example.

Q. 9. --OR-- Visual Basic: What are global variables? Explain their scope and life time with an example.

> Note: Scan had no group label; logged as single group. Board typos kept verbatim: 'imoportant', 'equal site', 'homonym', 'distribution'.
